R7-2-302. Minimum Course of Study and Competency Requirements for Graduation from
High School

The Board prescribes the minimum course of study and competency requirements as outlined in
subsections (1) through (5) and, beginning with the graduating class of 2017, receipt of a passing
score of sixty correct answers out of one hundred questions on a civics test identical to the civics
portion of the naturalization test used by the United States Citizenship and Immigration Services
as prescribed in A.R.S. § 15-701.01(A)(2).

1. Subject area course requirements. The Board establishes 22 credits as the minimum
number of credits necessary for high school graduation. Students shall obtain credits for
required subject areas as specified in subsections (1)(a) through (e) based on completion of
subject area course requirements or competency requirements. At the discretion of the local
school district governing board or charter school, credits may be awarded for completion of
elective subjects specified in subsection (1)(f) based on completion of subject area course
requirements or competency requirements. The awarding of a credit toward the completion
of high school graduation requirements shall be based on successful completion of the
subject area requirements prescribed by the State Board and local school district governing
board or charter school as follows:

a. Four credits of English or English as a Second Language, which shall include but
not be limited to the following: grammar, writing, and reading skills, advanced grammar,
composition, American literature, advanced composition, research methods and skills and
literature—reading literature, reading informational text, writing, research methods, speaking
and listening skills, grammar, and vocabulary. One-half credit of the English requirement
shall include the principles of speech and debate but not be limited to those principles.

b. Three credits in social studies to minimally include the following:
   i. One credit of American history, including Arizona history;
   ii. One credit of world history/geography;
   iii. One-half credit of American government, including civics and Arizona
government; and
   iv. One-half credit in economics.

c. Four credits of mathematics to minimally include:
   i. Two-Three credits containing course content covering the following areas in
      preparation for proficiency at the high school level on the statewide assessment
      and aligned to the Arizona Mathematics Standards for Algebra I, Geometry, and
      Algebra II: Number Sense and Operations; Data Analysis, Probability and
      Discrete Mathematics; Patterns, Algebra and Functions; Geometry and
      Measurement; and Structure and Logic. These three credits shall be
taken consecutively, beginning with the ninth grade unless a student meets these
requirements prior to the ninth grade pursuant to subsection (1)(c)(iv)(iii). The
requirement for the third credit covering Algebra II, may be met by, but is not
limited to the following: a math course comparable to Algebra II course content;
computer science, career and technical education and vocational education,
economics, science and arts courses as determined by the local school district
governing board or charter school.
   ii. One credit, covering Algebra II or course content equivalent to Algebra
      II. Courses meeting this requirement may include, but are not limited to,
      career and technical education and vocational education, economics, science,
and arts courses as determined by the local school district governing board or charter school.

iii. One A fourth credit that includes significant mathematics content as determined by the local school district governing board or charter school.

iv. Courses successfully completed prior to the ninth grade that meet the high school mathematics credit requirements may be applied toward satisfying those requirements.

v. The mathematics requirements may be modified for students using a personal curriculum pursuant to R7-2-302.03.

d. Three credits of science in preparation for proficiency at the high school level on the statewide assessment to minimally include standards in the following:

   i. Earth/Space sciences;
   
   ii. Life sciences; and
   
   iii. Physical sciences such as which may include chemistry or physics.

   e. One credit of fine arts or career and technical education and vocational education.
   
f. Seven credits of additional courses prescribed by the local school district governing board or charter school.

g. A credit or partial credit may apply toward more than one subject area but shall count only as one credit or partial credit toward satisfying the 22 required credits.

2. Credits earned through correspondence courses to meet graduation requirements shall be taken from an accredited institution as defined in R7-2-601. Credits earned thereby shall be limited to four, and only one credit may be earned in each of the following subject areas:

   a. English as described in subsection (1)(a) of this Section,
   
   b. Social Studies,
   
   c. Mathematics, and
   
   d. Science.

3. Online and distance education courses may be offered by the local governing board or charter school if the course is provided through an Arizona Online Instruction Program established pursuant to A.R.S. § 15-808.

4. Local school district governing boards or charter schools may grant to career and technical education and vocational education program completers a maximum of 5 ½ credits to be used toward the Board English, mathematics, science, and economics credit requirements for graduation, subject to the following restrictions:

   a. The Board has approved the career and technical education and vocational education program for equivalent credit to be used toward the Board English, mathematics, science, and economics credit requirements for graduation.
   
b. A credit or partial credit may apply toward more than one subject area but shall count only as one credit or partial credit toward satisfying the 22 required credits.
c. A student who satisfies any part of the Board English, mathematics, science, and economics requirements through the completion of a career and technical education and vocational education program shall still be required to earn 22 total credits to meet the graduation requirements prescribed in this Section.

5. Competency requirements.
   a. The awarding of a credit toward the completion of high school graduation requirements shall be based on the requirements outlined in A.R.S. § 15-701.01 and the successful completion of State Board-adopted academic standards for subject areas listed in subsections (1)(a) through (1)-(e) and the successful completion of the competency requirements for the elective subjects specified in subsection (1)(f). Competency requirements for elective subjects as specified in subsection (1)-(f) shall be the academic standards adopted by the State Board. If there are no adopted academic standards for an elective subject, the local school district governing board or charter school shall be responsible for developing and adopting competency requirements for the successful completion of the elective subject. The school district governing board or charter school shall be responsible for developing and adopting the method and manner in which to administer a test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services, and a pupil who does not obtain a passing score on the test may retake the test until the pupil obtains a passing score.
   b. The determination and verification of student accomplishment and performance shall be the responsibility of the subject area teacher.
   c. Upon request of the student, the local school district governing board or charter school shall provide the opportunity for the student to demonstrate competency in the subject areas listed in subsections (1)(a) through (1)(f) of this Section above in lieu of classroom time. In appropriate courses, a school district governing board or charter school shall include as a mechanism to demonstrate competency a score determined by the State Board as college and career ready on the competency test adopted by the State Board.

6. The local school district governing board or charter school shall be responsible for developing a course of study and graduation requirements for all students placed in special education programs in accordance with A.R.S. Title 15, Chapter 7, Article 4 and A.A.C. R7-2-401 et seq. Students placed in special education classes, grades 9-12, are eligible to receive a high school diploma upon completion of graduation requirements, but reference to special education placement may be placed on the student's transcript or permanent file.
